

Concept Note

Launch of the National Blue Agenda Actions Partnership

Oceans cover over two-thirds of the earth's surface, supporting lives on earth and below water, regulating climate and environmental eco-system and providing resources for social and economic prosperity. Recognising the essential roles of oceans in achieving sustainable development encompassing marine and maritime resources, environmental biodiversity and ecosystems and species and genetic resources for economic activity, social recreation and environmental sustainability, it is important to ensure their sustainable use and conservation. As the world's largest archipelagic nation, Indonesia is strongly committed to develop a National Blue Agenda to promote sustainable development of maritime and marine resources for equitable, inclusive and sustainable growth and human well-being. To advance the achievement of the National Blue Agenda, the Government of Indonesia (GoI), under the leadership of the Coordinating Ministry for Maritime Affairs and Investment, is working closely with the United Nations in Indonesia and Development Partners (DPs) to establish the National Blue Agenda Actions Partnership (NBAAP).

The Partnership is planned to serve as the national umbrella to support the Government of Indonesia to accelerate the progress to achieve the GoI's development targets of the National Medium-Term Development Plan (RPJMN) on blue agenda and the 2030 agenda for sustainable development. This includes the strengthening of synergy and coordination of the government program with relevant stakeholders and the support to global agendas such as the UN Decade on Ecosystem Restoration and the UN Decade of Ocean Science for Sustainable Development. To support the operational functioning of the NBAAP, a Secretariat is established and stationed at the Coordinating Ministry for Maritime Affairs and Investment, with support from the UN system and Development Partners to facilitate and promote the implementation of cooperation activities of the NBAAP.

Agenda

Monday, 14 November 2022, 10.00 – 15.30 WITA (GMT+8)
Launch of the National Blue Agenda Actions Partnership

Time	Agenda
